

WE DESIGN AND CREATE SPACES TO MEET YOUR LEISURE NEEDS

ABOUT US

At e-spaces we design and create bespoke modular buildings for all settings.

As a new business we integrate modern technology through computer aided design and manufacture. This allows us to meet the specific and individual needs of each and every customer.

We are not limited by traditional manufacturing methods; quite simply, we can design and create almost anything you need.

Working with a wide-range of suppliers to provide a choice of finishes and equipment, we can support you in developing the most appropriate spaces for your setting.

Our builds are designed to be used all year round, whatever the weather. They are high-quality, durable and cost effective. All models can be refreshed with new facias and roofing with the minimum of cost and fuss.

Do get in touch or visit our website for further information
